

Security that fits your business — and your budget.

The SMB Security Challenge

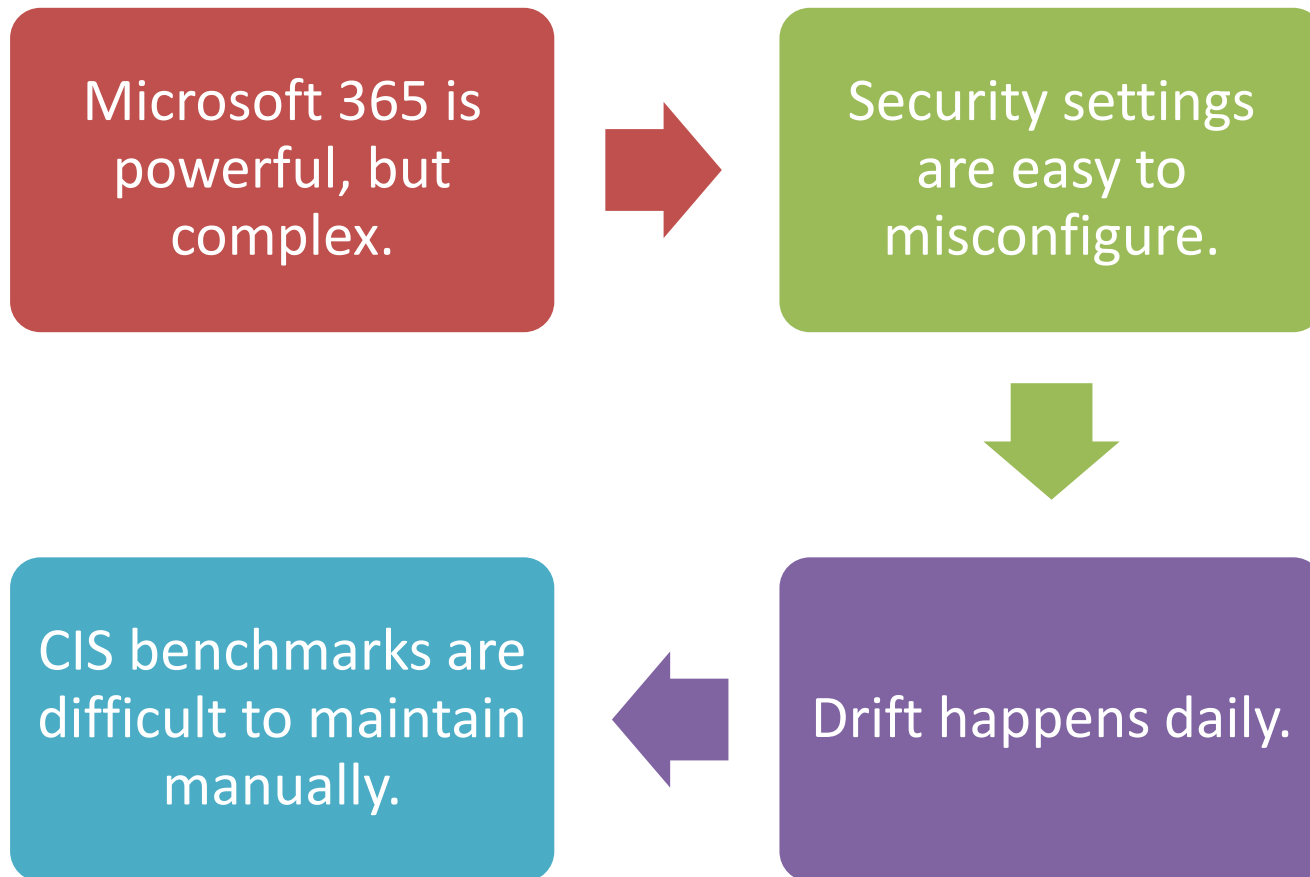

Small and midsize businesses face the same threats as large enterprises — but without the teams, tools, or budgets to manage them.

Misconfigurations and tenant drift are the leading causes of Microsoft 365 breaches.

The Microsoft 365 Problem

Introducing Guardyne365

YOUR AUTOMATED
MICROSOFT 365 SECURITY
POSTURE ENGINE.

BUILT FOR SMBs.

ALIGNED WITH CIS
BENCHMARKS.

ALWAYS ON.

What Guardyne365 Does

- CONFIGURES YOUR TENANT TO CIS STANDARDS

- MONITORS FOR DRIFT 24x365

- REMEDIATES RISKY CHANGES IN REAL TIME

- PROVIDES CLEAR INSIGHTS AND GUIDED ACTIONS

- ACTS AS YOUR SMB SECURITY OPERATIONS CENTER

CIS-Aligned Configuration

Start secure from day one.

Guardyne365 applies CIS benchmark controls automatically — no expertise required.

Continuous Monitoring

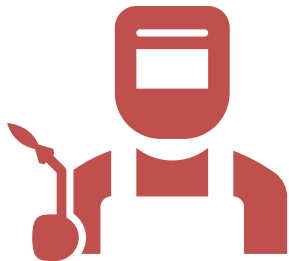

Your tenant is watched around the clock.

Guardyne365 detects configuration drift, risky changes, and deviations from CIS controls instantly.

Real-Time Remediation

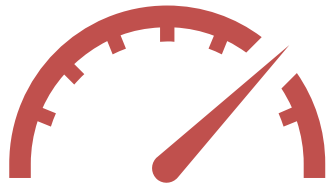

Fix issues before they become incidents.

Guardyne365 evaluates risk and automatically remediates harmful changes in real time.

Visibility & Insights

A simple dashboard shows what's secure, what's not, and what Guardyne365 has already fixed.

Security that makes sense.

What Guardyne365 Is Not

GUARDYNE365 IS PURPOSE-BUILT FOR MICROSOFT 365 SECURITY POSTURE.

IT IS NOT A SIEM.

IT IS NOT A BACKUP TOOL.

IT IS NOT AN ENDPOINT SOLUTION.

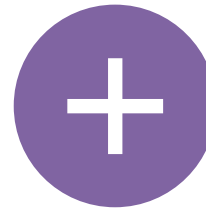

SMB & MSP Benefits

- LOWER OPERATIONAL OVERHEAD

- FASTER RESPONSE

- PREDICTABLE PRICING

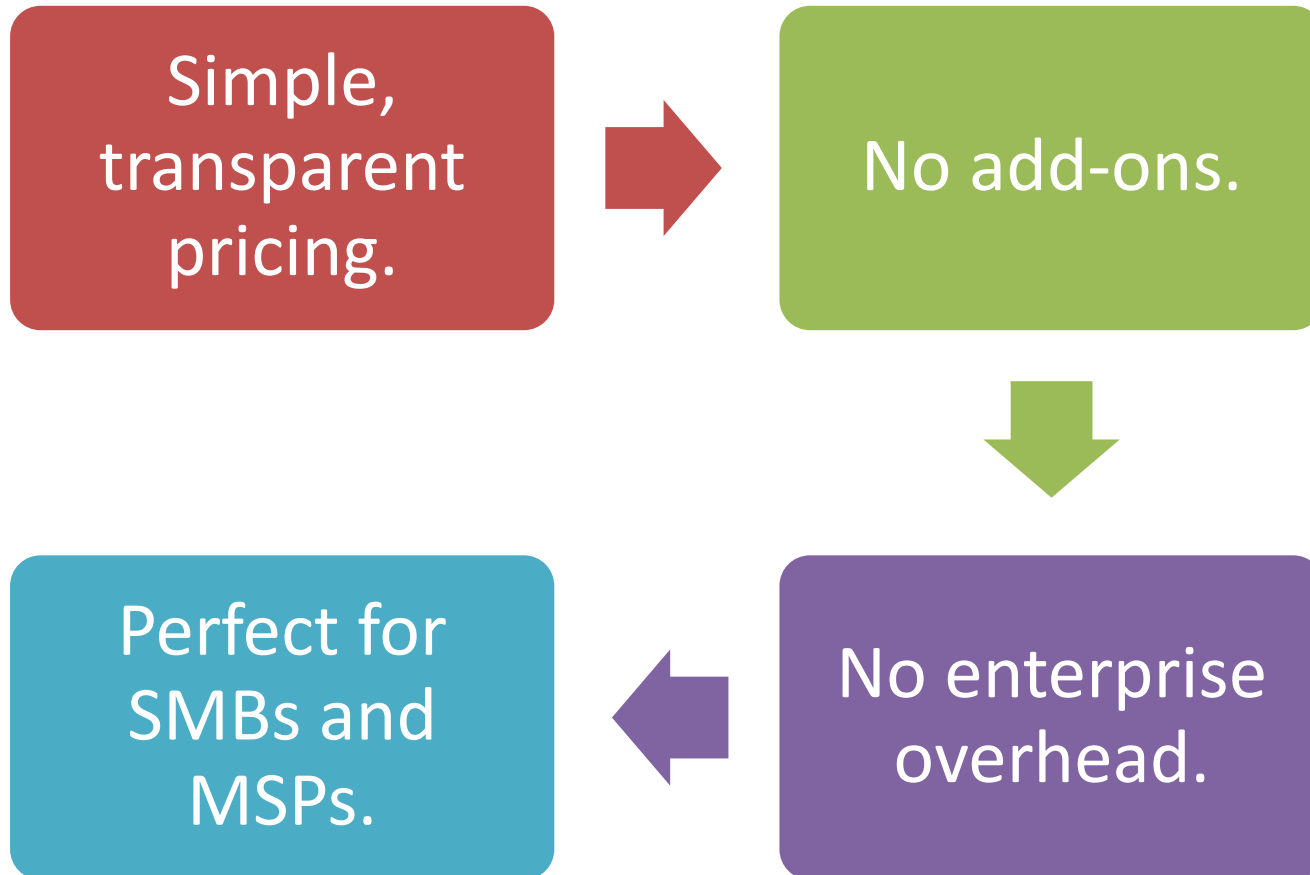

- SCALABLE ACROSS TENANTS

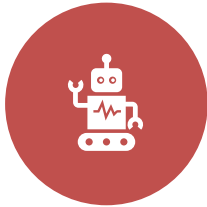

- NO SPECIALIZED SECURITY TEAM REQUIRED
